

eVerti-Feed

eVerti-Feed – Into the future with electric drive

Feed your cow green

- 100% electric
- 100% emission-free
- Compact design, maximum manoeuvrability
- High-performance 40-kWh power storage unit
- Mixing capacity of 10-12.5 m³

Into the future in a sustainable and performance-enhancing way

Innovative solution not only for the small-scale business

- Powerful electric motor for the hydraulic unit enables maximum transmission of power to the hydraulic traction drive
- Electrically powered IMS mixing auger
- Battery power for up to 10 t of mixed fodderw

Compact design

- Individually adjustable driver's stand
- Greatest possible diversity of use thanks to maximum manoeuvrability and the large number of equipment options
- Intuitive operation ensures maximum driving and operating convenience

Technical data

eVerti-Feed 1251

Dimensions	
Width with crossover conveyor [m]	2.28
Width with one-sided/two-sided discharge gate [m]	2.38/2.48
Length with rear crossover conveyor [m]	5.19
Length with lateral discharge gates [m]	5.02
Container ground clearance [m]	0.80
Dead weight	
Basic machine [kg]	approx. 5,500
Loading	
Usable mixing capacity [m ³]	10/11/12.5
Axle	
Track [mm]	1,600
Axle distance [mm]	3,130
Vehicle height depending on tyres	
250/50 18 [m]	2.65/2.83/3.01
Drive	
Battery power [kWh]	40
