

Bin carts

Mod. E 12 - E 12 BIG

Cart for bin carriage with frame structure made of 120x120 cut tube profiles complete with bascule drawbar with 3 points linkage which operates on the lifter to facilitate row entry and exit. The bascule drawbar steers, the cart tilts upwards to unload the bins, thanks to adjustable double wheels roll track the bin is unloaded without hitting the product. It is equipped with wheel tyres 10/75/15 12 PR, fixed foot-boards, a support foot and an axle without brake; it is not equipped with on-road lighting system.
